

ATM, CDM & Kiosk Driving and Management

Service Flyer

The Self Service landscape is changing today for virtually every bank. What was once a single value proposition - providing cash to consumers - has evolved into much more. Financial institutions increasingly have the opportunity to introduce innovative functionality and revenue-generating services via the ATM/CDM/Kiosk channels. In order to do this successfully, however, they need to evaluate their current Self Service programs and improve their ability to differentiate their business while creating new opportunities

Is your ATM fleet plagued by availability and performance issues? Euronet has the solution to help you counter all such issues

Achieve Greater Efficiencies While Maintaining Technological Relevance

Intensified economic and business forces have placed extraordinary pressure on banks to remain competitive, increase customer loyalty, and improve the efficiency and profitability of all of their alternate delivery channels.

With hundreds of thousands of terminals in service worldwide, financial institutions recognize that the self-service terminal or ATM/CDM/Kiosk is a key customer touch point, and has now attached increased value to it beyond simple cash dispensing. The moment these self-service terminals go down or fail to provide the service customers expect, your business and brand image suffers.

Euronet Pakistan offers a turnkey solution for the management and operational support of your ATM, CDM & Kiosk network, ensuring that your machines are up and running when your customers need them. Our accurate insights about the global payment market place come from our global experience in the complete

payment's value chain, enabling us to develop and offer innovative and conveniently comprehensive solutions to our customers, giving them an opportunity to leverage more value from every single transaction.

Euronet can help turn a financial institution's self-service terminals from a basic machine into a multitasking high performer that can display your brand, cross-sell your products and better support your customers' overall banking needs.

Euronet Pakistan helps you improve the profitability of your ATM network by extending beyond their core capabilities with newer services like Dynamic Currency Conversion, handling complex payments such as cardless dispense whereas at the same time reducing the cost of ATM network maintenance and maximizing availability with proactive 24 x 7 monitoring.

Rely on our technical expertise to help you analyze your options. We will provide an
